PROFESSIONAL SUMMARY

Highly skilled and motivated Full Stack Web Developer with expertise in JavaScript, React, Node.js, and RESTful APIs. Proven problem-solving skills evidenced by solving 500+ DSA problems. Adept at collaborating in agile teams, ensuring seamless integration, and delivering high-quality web applications. Excellent communication, time management, and teamwork skills.

PROJECTS

1. School Admission (Education) Website | |

Design

JavaScript | Git | HTML5 | CSS3

- Developed a website design replicating the functionality of the Global Indian International School's admission process.
- Implemented a landing page with a navbar providing links to various sections including teachers' page, admission process page, and authentication (login/signup).
- Designed frontend user interface with features such as a principal's message and footer.
- Developed an admin page utilizing CRUD operations.

2. boAt-clone | |

HTML5 | CSS3 | Responsive Web Design | Git | Bootstrap

- Created a collection of professional and customizable web components, including a responsive navbar, footer, carousel, and various body sections.
- Ensured the website works well on all devices and implemented a timer for daily deals.
- Designed cards to display product information and integrated carousel sliders for better presentation.
